   A. Maintenance Report
      1. The hydrant at the school is still leaking. We obtained an old hydrant from Kettle River. New parts have been purchased and installed. We are waiting for Gobel Excavating to schedule a time to dig up and replace the hydrant. The old hydrant from the school will be
given to Kettle River in exchange for the one they gave us. A new hydrant would cost approximately $6,000. We will have about $1,000 into fixing the old one.

2. The hydrant at the Warming Shack/Ice Rink leaks when it is turned on. Tom will get it repaired next spring as the budget allows. No skating rink this year.

3. Ponds are drained, mounds are working, everything is winterized.

4. A sewer pipe on Dahl road will need some repair next spring. The pipe needs to be dug up and glued back together at the joints.

5. An issue with the sewer system on Dahl Road and N Mingus Road has revealed that in 1982 when the sewer lines were first built, for every two residences there was one lift station. We need to inform these residents that they are sharing with a neighbor and some sort of arrangement needs to be made between them should repair be necessary.

6. Northview Bank asked if Tom could plow snow again this winter. The bank will be charged a snowplowing fee.

8. PointOS has been installed and is working good. The staff has been trained, each bartender has their own cash drawer, and reports are automatically sent to the clerk via e-mail.

The clerk stated that the previous hindrance was a personality conflict and refusal to do the steps required to make the system work. We now have a staff that has worked together to accomplish getting the new system up and running. Warren Peters, Phil Lippo, and the clerk did inventory reporting so all inventory could be put into the computer with accurate size and price. She stated that we are very fortunate to have someone locally (Warren Peters) that is so knowledgeable and available.
