3. OLD BUSINESS
   A. Assistant Fire Chief Mike Peterson went over the proposed 2016 Cromwell-Wright Joint Powers Fire/Ambulance Budget and answered questions.
   Motion by Lally to approve the 2016 Fire/Ambulance Budget. Seconded by Lippo. Motion carried unanimously.

   Mike gave an update of the Cromwell-Wright Fire/Ambulance merge. He explained that Legislature closes their session in May. Any laws they pass do not become effective until August. Mike hopes to have the District in place by July 1, 2016. If the District is in place then they will do their own levy for 2017. If the District is not approved by Legislature before they end their session then each city will continue the fire levy as in the past. During the transition any money received by the city for the fire/ambulance will be transferred to the fire/ambulance fund.

   A Resolution for each township wanting to become part of the District and the Joint Powers Agreement will be signed in January. Once the new Board is in place in January contracts to the townships will have to be re-issued. Once the District is in place new contracts will be made up. Mike explained that the taxpayer will be assessed based on the market value of the property. Approximately $45/$100,000 net tax capacity. Attorney Yetka will draft up an agreement to transfer funds from the city to the Fire/Ambulance District.

   Mike asked for approval from the council to purchase training equipment consisting of a 4-pack of Little Anne manikins, a Zoll AEDPLUS Trainer Case, and a PhysioControl. Total of $1540.00

         communication system between the tower and the well house is working well with a strong
         signal. Pumps are working perfectly.
      b. The generator is all set for any power outage. We will be able to run the sewer lift
         stations and also pump water to the tower in an emergency.
      c. Still researching mixers. Mike Roer from MRW recommended not getting a mixer but just
         continuing what we are currently doing because of the expense should something go wrong
         with the mixer. Other sources have highly recommended the use of a mixer. Tom is
         checking with other cities for their opinions. Tom is requesting bids and we will submit a
         grant application in the event that we decide to go with a mixer.
      d. Beaver Roofing submitted a quote for tearing down the chimney on City Hall and
         repairing the hole. $6745.00
      e. Craig Harp has recommended waiting until Spring to repair the potholes by the clinic. At

         millings. We will consider that when the fire department decides to do asphalt work by the
         fire hall. It was suggested by the council to consider doing the pavement in front of the
         pavilion at the same time.
      f. Keith Clark will submit an estimate for gravel on Lippo Lane, Lally Road, and Swenson
