A. Manager’s Report
a. Raenese and Megan attended the MMBA Boot Camp from Feb 16 – 18 at Breezy Point Resort. They learned a lot from the conference and felt it was very worthwhile. They came back with several ideas to put into place:
   A private office will be set up in a corner of the liquor room for the manager. Raenese requested a master computer be placed in this office for her and her assistant’s use only. This will help get a better handle on inventory and internal controls.
   Safety concerns were discussed for patrons and employees. Regular safety meetings will be scheduled.
   An events calendar will be created and placed on the city website. Looking into Arvig, a mobile texting application for advertising events and drink specials.
   Mandatory training will be scheduled for all liquor store employees. This will cover theft training, customer service, new liquor laws and how they affect employees, and other topics as they come up.
   Will be backing up the cameras monthly.
b. Raenese asked when she could expect the new computer software system. Peters is working on the credit card processing program now and will get that in place first.
c. New Promotions:
   Build a 6-pack of Minnesota Brewery’s craft beers.
   Wine Wednesday: 10% off on wines on Wednesdays and 15% off the “featured” wine.
d. Now that the cooler is out, would like to talk to Hazelwood about bringing a Foosball game for the back room. Air hockey was also mentioned as an idea.
e. Would like to paint the back room and the off-sale shelves. Will be rearranging the off-sale products for better viewing.
f. Will be updating the liquor store employee manual.
g. On February 23 & 24 the bar will be closed as the cooler is scheduled for a cleaning.
h. Getting bands booked for the summer.
i. Waiting for bids for the patio door.
j. Asked for approval to accept Jeff Anderson’s estimate of $1320.00 for material and labor to finish off the inside of the cooler after it has been stripped and treated for mold/mildew. Glassboard will be used as the interior finish and seams will be sealed with silicon to prevent moisture penetration in the future. **Motion by Lally to approve Jeff Anderson’s estimate of $1320.00 for cooler repair. Seconded by Lippo. Motion carried unanimously.**

k. Would like to contact Dish about a music package and get pricing.

l. Night bartenders will no longer be counting and balancing money after their shift. This will be done on the following morning shift by either the manager or assistant manager. Concern with employee safety.
