5. WATER/SEWER/MAINTENANCE
   A. Maintenance Report
      a. There is an electrical short in the Crow’s Nest at the arena. The Riverside Drifter’s Saddle Club would be willing to pay half of the expense of an electrician if the city would pay the other half. Tom was requested to get quotes for the wiring.
      b. The driveway belonging to Foley’s on the south alley is very narrow. They inquired who was responsible to purchase and install a longer culvert to widen the driveway. It is the homeowner’s responsibility.
      c. Tom recommended taking down the spectator’s fence at the mud bog since it is no longer being used.
      d. Repairs are needed for the 3rd lawnmower estimated at $500 by Moose Lake Implement. The value of the lawnmower would be $1500 if repaired. Tom was asked to check on other quotes.
      e. The “No Trucks” sign seems to be directing the trucks away from the corner on the south alley so Tom suggested just leaving it where it is.
      f. There are large potholes on Lake Street, by the clinic, and in front of the pavilion. Tom suggested saving up for road repairs as these need to be addressed in the future. MnDOT should be contacted for the clinic corner.
      g. Worked on the Speed Zone signs. New batteries were purchased. They both worked for a couple of weeks and then quit again. The solar panels are working correctly. The regulators are possibly damaged. Tom ordered one to be installed on the sign on the east end of town and if this solves the problem he will order a regulator for the sign on the west end of town.
      h. The red light is on at the sewer mound by Lippo Lane. One pump is not working. Tom has arranged for Kent’s to come to repair it.

Raenese and Mike will look into other software programs. Mayor Lund asked Peters if he had a reimbursement check for the city.
