   Discussion on the Lundin building. Dennis and Lawrence Lundin were present to explain how they plan to sheet over the wall that is falling down and remove the bricks that have already fallen onto the ground for a temporary solution for public safety. One plan for a permanent solution would be to remove the roof from the inside and then rebuild the portion of the wall that is falling down. Another option is to sell the property. If they decide to repair the building they would start the project this winter. Discussion followed on demolition, possible funding options for demolition or repair, and possible sources of grants available. Mayor Lund asked for a definite plan and timeline by next month’s council meeting.

Mike gave an update on the progress of the Cromwell-Wright Joint Powers Fire & Ambulance District. He handed out a map showing the perimeter of the Ambulance District compared to the Fire District. He explained that the Ambulance District collects the funding and the Fire District is in charge of the operations; currently two separate entities.
Documents have been drawn up by Attorney Yetka to present to legislation for approval of the Special Taxing District and a new document of the Joint Powers Agreement to replace the current agreement which will end on December 31, 2015. Information was handed out on the projective 2016, 2017, and 1st half of 2018 revenues from both the Cromwell and Wright departments. A timeline was handed out explaining the tasks involved for incorporating the new Fire District.
Mike also explained the need for a part-time Ambulance Operation Manager and what those duties would involve. Starting pay at $15 per hour at 10 hours per week. Funding would come from increased ambulance rates and funding from the Northwest Carlton County Ambulance District.
